

California AIDS Clearinghouse **CATALOG**

A Collection of Educational Materials for HIV/AIDS/STD Education,
Prevention, Counseling, Testing, and Care Programs in California

06/15

California AIDS Clearinghouse (CAC)

CAC assists in reducing the spread of HIV infection by developing and providing appropriate and culturally sensitive educational materials, free-of-charge, to local health jurisdictions and community-based care/prevention programs conducting structural, individual, and group-level HIV/AIDS risk-reduction interventions in the California Project Area*.

All materials in this catalog were made available using federal funding and have been approved as specified in the California Department of Public Health's Document Review Guidelines and recommended by a statewide HIV/AIDS Materials Review Panel as outlined in the "Content of AIDS-Related Written Materials, Pictorials, Audiovisuals, Questionnaires, Survey Instruments, and Educational Sessions in Centers for Disease Control and Prevention (CDC) Assistance Programs" (Interim Revisions, June 1992).

Since HIV is spread primarily through sexual practices or by sharing needles, materials in this catalog may not be appropriate for viewers outside of the materials' intended target population(s).

Methods of Ordering

To ensure you have the most recent catalog, please visit www.cdph.ca.gov/programs/AIDS/pages/OACAC.aspx each time you order. Send your completed order sheet via FAX to (916) 449-5800, via e-mail to CACOrders@cdph.ca.gov, or by mailing it to the address on the order sheet found at the back of the catalog.

To avoid delays, be sure to include all of the information asked for on the order sheet.

**There is a maximum of 10 items per order.
Each item, unless otherwise stated, has a maximum quantity order of 100.**

Orders tend to be processed in 2-3 weeks.

Due to a reduction in funding, some materials in the catalog may be out of stock. These items may be restocked as funding becomes available.
Thank you for your patience and understanding.

*Funding guidelines define the California Project Area as all of California except the counties of Los Angeles (excluding the City of Long Beach), Marin, San Francisco, and San Mateo. If you are in these counties, please contact your local health jurisdiction for HIV/AIDS/STD educational materials.

Materials:

PUB208/A001 **(Currently Out of Stock)**

HIV/AIDS: The Basics

PUB209/A002

VIH/SIDA: Lo Básico

Booklet: These materials provide basic information about HIV, how it is spread, and how to reduce the risk of contracting the virus. They also explain the use of latex barriers, being smart about drug use, and needle exchange and getting tested.

PUB161/A227 **DVD**

PUB162/A228 **VHS**

What Do You Know About HIV and HIV Testing?

This video addresses elements of pretest HIV information that are appropriate for testing sites whose clients have minimal knowledge of HIV/AIDS testing. The material describes both the standard and rapid HIV antibody tests.

Maximum Order: 1

PUB320/A231 **(Currently Out of Stock)**

What Do You Know About HIV and Rapid HIV Testing?

PUB205/A236

¿Estás al tanto del VIH y la Prueba Rápida?

Brochure: These materials were adapted from the video, "What Do You Know About HIV and HIV Testing?" (PUB161/A227 & PUB162/A228) and provide an in-depth overview of HIV and the rapid HIV test.

PUB255/A230 **(Currently Out of Stock)**

Check It Out

Brochure: This material lists common STDs, their symptoms, and treatment options and offers a clear connection between HIV and STDs. The piece also covers how easily you can become infected with HIV if you already have a STD and vice-versa.

PUB321/A232

What Do You Know About HIV and Standard HIV Testing?

PUB204/A235

¿Estás al tanto del VIH y la Prueba Estándar?

Brochure: These materials were adapted from the video, "What Do You Know About HIV and HIV Testing?" (PUB161/A227 & PUB162/A228) and provide an in-depth overview of HIV and the standard HIV test.

PUB160/A222

For Our Health

Booklet: Printed with a larger, easy to read font, this material is a comprehensive piece that answers many HIV/AIDS questions for individuals over the age of 50.

PUB293/A220

¿Preocupado?

Wallet Card: This material is intended for the monolingual Spanish speaking population living in rural areas and/or campesinos. It speaks to the importance of getting tested for HIV and other STDs and encourages the reader to get treatment if they are infected.

PUB222/NA101

HAWK: Reloaded

CD: This material, developed by Native American youth is intended to motivate youth to make healthy choices that will reduce the risk of HIV/AIDS/STD infections within their communities. It features Native American artists who promote prevention education through the tradition of "putting back into the circle." It is recommended for outreach, individual, or group level interventions.

Maximum Order: 10

PUB155/A210

¿Positivo o Negativo?

Poster: This piece promotes the importance of HIV testing for monolingual Spanish speaking men and women. It also encourages the reader to return for their test results. It is useful for display at outreach venues to promote testing programs and facilities.

PUB237/TA101

Conversations: A Family Discussion

DVD: This material was designed to encourage honest and open dialogue about HIV/AIDS in the African American community and to increase awareness about prevention, testing, and self-care. The included leader's guide describes potential discussion topics which may arise in a "Conversations" group.

Maximum Order: 1

PUB159/A221

HIV Inside/El VIH Desde Adentro

Book: This bilingual material contains information on HIV/AIDS for the incarcerated population. It details modes of transmission, methods of prevention, and describes the stigma one may face as an HIV-positive inmate. The material utilizes slang and prison terms, making it more relatable and easier to understand for the targeted population.

PUB276/A239

Breaking Traditions

Brochure: This material addresses crystal meth use and HIV within the Asian community from a family perspective.

PUB221/NA100

HAWK

CD: This material, designed by and for Native American youth and young adults can be used to motivate Native Americans to make healthy choices that reduce the risk of HIV/STDs and unplanned pregnancy.

Maximum Order: 10

PUB257/A225

Clear About Crystal?

Booklet: This straightforward piece targets people who are addicted to meth and in denial. It gets them to recognize and acknowledge their risky and life-threatening behaviors. It advises them to stop meth abuse and seek help now, no matter which stage of addiction they are in.

PUB158/A214

Hepatitis C

Booklet: This material provides knowledge on Hepatitis C and how it relates to IDUs. Readers learn how Hep-C affects the liver, the modes of transmission, HCV/HIV co-infection, and prevention/risk reduction methods. This piece also discusses symptoms and how to live a healthier life if you are infected. It provides testing information and a glossary of terms. It is recommended for individual or group level interventions.

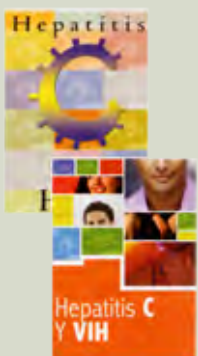

TA103

The Risks of the Job

DVD: This video is intended for law enforcement officers. It is a documentary showing how officers can reduce their risk of needle-stick injury on the job. Officers visit needle exchange sites on their beat and discuss ways that Syringe Exchange Programs (SEPs) help keep law enforcement officers and their communities safer.

Maximum Order: 1

PUB268/A206 **(Currently Out of Stock)**

Hepatitis C and HIV

PUB201/A233 - Brochure

Hepatitis C y VIH

PUB324/A207 - Wallet Card

What is Hepatitis C?

PUB294/A223 - Wallet Card

¿Qué es la Hepatitis C?

These materials provide information about the similarities and differences between Hepatitis C and HIV. They provide key points for risk reduction and provide the California HIV/AIDS Hotline number for additional Hepatitis C resources.

PUB213/PCRS12 **Postcard**

PUB330/PCRS13 **Wallet Card**

You Care About Your Partner...and So Do We

These materials were designed for the general population with the primary message of how and why to access PCRS/PS programs and to help notify partners about one's HIV status. They are recommended to promote PCRS/PS programs and for display in testing areas and HIV/AIDS-specific waiting rooms. They may also be used at outreach venues.

PUB283/PCRS1

Make the Call/Haz la llamada (English/Spanish)

Brochure: This bilingual piece gives general information about the PCRS/PS program.

PUB270/PCRS4

HIV Exposure: How Can I Let My Partner Know?

PUB229/PCRS7

Exposición al VIH: ¿Cómo Se Lo Digo a Mi Pareja?

Brochure: These materials provide information on how the PCRS/PS program can help readers inform their partners about their HIV status and how they can access PCRS/PS.

PUB282/PWP100

Living Poz

Brochure: This material, targeting HIV-positive people, provides information on what it means to be HIV-positive, how to live a fulfilling life with HIV, as well as making choices to protect oneself and his or her partners. The messages are presented in a sensitive manner with appropriate images in an 8-panel format. This material works well as a complimentary brochure to "Following Your Plan" (PUB264/PWP204).

PUB227/PCRS5

HIV: You May Have Been Exposed

PUB228/PCRS6

VIH: Pudieras Haber Sido Expuesto

Brochure: These materials discuss the essentials people need to know if they have been exposed to HIV.

PUB224/P175

Living Well with HIV: A Self-Care Handbook

PUB225/P176

Vivir Bien Con el VIH: Practico de Salud

Booklet: These materials were designed for people in the early stages of HIV infection. They provide checklists, forms, charts, and a handbook that is a great resource for family, friends, and caregivers to help develop a customized health plan. Topics include: dealing with mental health issues, working with healthcare providers, utilizing nutrition and exercise, dealing with medication, and preventing additional infections. These materials are recommended for use by service providers to educate and assist newly diagnosed clients in managing their HIV-related health issues.

PUB223/P102

Breaking the Silence

Booklet: This material contains personal stories by Latino/a role models. They share the reality of dealing with an HIV diagnosis, choosing treatment options, and disclosing their serostatus to family, friends, and lovers as well as protecting partners from transmission.

PUB231/PWP205

Healthy Eating: For People with HIV

Booklet: This material addresses the nutritional concerns of HIV-positive people. It provides the basics of a well-balanced diet and advises the reader on how to combat specific HIV symptoms and medication side effects through dietary changes. The material is used to educate people with HIV on how eating well can help them stay healthier and fight off opportunistic infections. This material is only recommended for individual or group level interventions under case management with a nutritionist/dietician who specializes in persons living with HIV.

PUB290/M109

On the Low!

Mini-Comic: This material was designed to increase awareness and behavioral change within the men who have sex with men and women (MSM/W) African American community as it relates to HIV/AIDS/STD transmission. The piece challenges the reader to make a conscious decision to inform partners about HIV/AIDS/STDs and condom use. It also encourages the reader to "Do the Right Thing."

PUB220/M113

Body Check

CD: This material uses hip-hop music for its prevention message. Songs like "Walk to Da Sto" and "Better to be Safe than Sorry" stress the importance of condom use and respecting your body. This piece was made for men but is appropriate for many other groups including women, youth, and MSM/W.

Maximum Order: 10

PUB264/PWP204

Following Your Plan

Brochure: This material targets HIV-positive individuals and provides information for maintaining a healthier lifestyle. It offers helpful tips on organizing a medication plan, scheduling appointments, meal planning, and building a support system. This material works well as a complimentary brochure to "Living Poz" (PUB282/PWP100).

PUB258/M110

Clear About Crystal?

Postcard: This material was designed to increase HIV/AIDS/STD awareness for the MSM community who may be experimenting with crystal meth use. It lists a number of side effects that can develop with continued usage of crystal meth. Telephone numbers for the California HIV/AIDS Hotline and California Department of Alcohol and Drug Program are included for additional information.

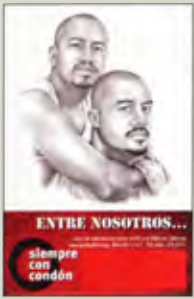

PUB329/G166 **Poster**

PUB327/G169 **Magnet**

Yield! Talk About Status

This material is intended for MSM who frequent commercial sex venues and speaks of the importance for communicating and disclosing your HIV status before engaging in sexual encounters.

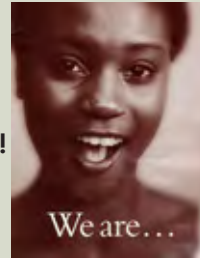

PUB332/G802 **Entre Nosotros**
 PUB339/G803 **Safer Sex: Hot & Healthy**
 PUB333/G804 **Stay Healthy!**
 PUB334/G805 **Friends Play Safe!**
 PUB335/G806 **¡Sin Condón, Yo No Juego!**
 PUB336/G807 **Sensual, Saludable y Más Seguro**

¡Siempre Con Condón!

Posters: These materials, targeting gay Latinos, reinforce HIV/AIDS awareness and condom use.

Minimum Order: 25

PUB318/W184

We Are...

Booklet: This material was designed for African American women who are at risk of contracting HIV/AIDS/STDs. It addresses the link between risk-taking behavior and self-esteem. It suggests ways to reduce such risks, including intimate touching instead of intercourse and encouraging partners to use condoms.

PUB239/W179

Four Sisters, Four Stories

PUB262/W180

Cuatro Mujeres, Cuatro Historias

Booklet: These materials share interviews of four women with diverse ethnic backgrounds. They encourage women to empower themselves and get tested. Through personal stories, these women hope to get other women to assess their own risky behaviors.

PUB230/PCRS9 **Postcard**

PUB319/PCRS10 **Wallet Card**

You Care About Your Partner...and So Do We

These materials were designed for the MSM population. Their primary message is to help readers access PCRS/PS programs and to help notify partners about one's HIV status. This piece is recommended to promote PCRS/PS programs and for display in testing areas and HIV/AIDS specific waiting rooms. The material may also be used at outreach venues.

PUB272/W164

HIV Mom-to-Be

Brochure: This material informs pregnant HIV-positive women about the importance of protecting their baby, seeing a doctor early, and taking any prescribed medications. It also provides examples for staying healthy and how to avoid and manage stress.

PUB238/W101

For Sisters Only

Brochure: This material, targeting African American women, involves two friends discussing HIV transmission and the importance of condom use. This piece contains step-by-step condom use instructions, an HIV testing message, and has a pocket to put a condom in.

PUB292/W178

Positive? How are you Feeling?

Booklet: This material for HIV-positive women focuses on such topics as viral load testing and how to interpret test results. Other facets of this material include helping women to recognize the feelings and signals that may be related to their HIV status. It also provides the reader with important numbers and web addresses for further assistance.

PUB299/T108

Today's Trans Youth Can Be Responsible

PUB300/T109

La Juventud Trans de hoy puede ser responsable

Mini-Booklet: These pieces suggest transgender youth can be responsible with their sexual health. They discuss the need for transgender youth to talk to their partners about sex, use latex condoms, and support testing for their partners. They also recommend, for those individuals who use hormones, to use new unused needles every time and to be cautious when using street hormones.

PUB310/T110

Today's Trans Youth Can Be Responsible

PUB311/T111

La Juventud Trans de hoy puede ser responsable

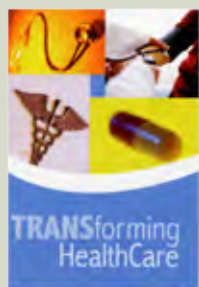

Postcard: These pieces suggest transgender youth can be responsible with their sexual health. They discuss the need for transgender youth to talk to their partners about sex, use latex condoms, and support testing for their partners. They also recommend, for those individuals who use hormones, to use new unused needles every time and to be cautious when using street hormones.

PUB235/T106

It's My Life...It's My Time!/ Es Mi Vida...Es Mi Tiempo! (English/Spanish)

Booklet: This bilingual material is intended to increase knowledge and strategies on how transgenders can take better care of themselves and their health. The piece discusses safer sex negotiation, safer injection with hormones, silicone and drugs, dealing with depression, and taking care of one's body (e.g. teeth, feet, prostate, and stomach). Transgender service resources are also included.

PUB236/TA100

TRANSforming Health Care

DVD: This material was created to increase awareness and knowledge about transgenders and HIV/AIDS. It discusses STD/HIV risks in the community and was originally created for medical service providers and HIV/AIDS service organizations. This material is a great tool for leading transgender-focused discussion groups and is helpful for program planning.

Maximum Order: 1

PUB254/T107 - Postcard

PUB312/T112 - Poster

Bionic: Transgender

These pieces, targeting the transgender population, promote taking care of oneself by having safer sex and getting an HIV test to help build good self-esteem.

PUB240/Y132

Be A Safe Playa

CD: This material, designed for African American youth, helps the listener become more aware of HIV/AIDS and the impact it can have on his or her life. The material features five original rap songs.

PUB253/Y139

Be Safe Stay Safe

Booklet: This material promotes prevention messages to high-risk youth regarding HIV/AIDS/STDs. It provides answers to common questions raised by youth, dispels myths about HIV/AIDS, and includes facts about the HIV/AIDS epidemic. The material includes spaces to write phone numbers, addresses, and other important information to remember.

PUB297/Y140

Sister to Sister: Sex Talk

PUB245/Y143

Entre Hermanas: Una Plática Sobre Sexo

Comic Book: These materials were designed to increase awareness and knowledge related to HIV/AIDS/STDs, relationships, unprotected sex and teen pregnancy for young women between the ages of 14-17 years old. They tell the story of two young girlfriends of color discussing issues within their community. It encourages abstinence and empowers young women to take on a level of responsibility with their sexual health. This piece is recommended for outreach, individual or group level interventions.

PUB241/Y134

What's Up With HIV & AIDS?

Booklet: This material, targeting youth, provides general HIV/AIDS information, including how HIV is transmitted and how to protect oneself from HIV. The material addresses peer pressure and includes activities to reinforce the information presented.

PUB243/Y141

On Beating HIV

Booklet: This material is a general HIV/AIDS/STD awareness workbook for youth ages 15-17 years old. It provides HIV/AIDS/STD prevention information and explores ways to reduce risk. It illustrates the connection between drugs and the increased risk of infection, and shows the benefits of a healthy relationship. The piece also emphasizes the importance of getting tested and seeking early treatment if infected. This is recommended for individual and group level interventions.

PUB323/Y138

What Do You Think When You Look in the Mirror?

Booklet: This material was created to empower and support young women regarding the daily pressures of staying healthy. A few of the topics covered in this piece are self-love, sexual relationships, and symptoms of HIV/STDs. It includes resources such as Planned Parenthood, the California Youth Crisis Line and the Children of the Night.

PUB291/Y136

Playing Safe

Booklet: This material educates high-risk youth about HIV/AIDS/STDs. It also stresses the importance of condom use and other methods of protection; abstinence, setting limits, monogamy, talking to partners, and regular testing.
